EDUCATION/ SCHOOL	<u>FEEDBACK #186</u>	27:45	21:00	REC	PA/O	09-12-91 11:30A
	<p>Linda Bell, Board Member of Parents Opposing Propaganda in Schools and John (Jack) Thompson, Attorney at Law, were guests of attorney, Harold Ray. Discussion continued about "Link Line", a school program presented as anti-drug but in reality is a presentation of alternate life-styles for sexual orientation. Presented by the county and funded by United Way, "Link Line" is set up in classrooms under teacher supervision and presents homosexuality as normal and encourages young people to engage in alternate sexual experiences which "Link Line" says will allow them to discover their true sexuality. Also contained within the "Line Line" presentation are situations which cause the child to believe his parents are enemies seeking to prevent their maturity. A discussion followed regarding United Way's decision to not fund the California Boy Scouts because they won a Federal Court case now allowing homosexuals in the Boy Scouts and their demanding a Gay Boy Scouts division be established. Primarily an anti-family, anti-parental authority, pro-homosexual program, the "Link Line" tapes are manipulated according to "what the audience will stand". Viewers were told to express their views about "Link Line" to United Way and their individual school system.</p>

<p>Because public tax monies were used to produce and promote the course of "study" as an anti-drug program, the audience was urged to voice their views to school systems across the nation. The tapes also encourage teens to think of their parents as enemies trying to suppress their sexual maturation. A warning letter was sent to the state of Florida by Parents Opposing Propaganda in Schools, giving 20 days to prove the tapes are an anti-drug presentation. Viewers were warned to be aware if this propagandized program was initiated into their childrens' school and to boycott United Way that funds the project.</p>

	Harold Ray introduced Chuck and Debbie Deeb and Jack and Vicky Goodchild, all home-school parents. Both sets of parents gave their personal reasons for being home-school advocates as parental values which can be taught in the home without outside influences. Because the child is taught subjects and principals as they exhibit their readiness to learn, they learn faster and do better scholastically. Also presented was the fact that because the teaching process goes on for the entire waking hours of the child, both parents taking part in the teaching process, thereby reinforcing the family unit. All aspects of normal life is used as a teaching tool and the children learn better. Socialization comes from field trips with other home-schooled children. Suggestions were given as to resource materials on home-schooling and ways to get started.						08-01-91	8:30A
